Digital Confidence Announces Powerful Multi-Format Metadata Editor

TEL AVIV, ISRAEL (August 03, 2009) — Digital Confidence, the leading provider of data leakage prevention (DLP), hidden data / metadata removal, and privacy software solutions, today announced the release of MetadataTouch™ - a powerful multi-format metadata editor.

MetadataTouch™ enables users to view and edit metadata in Microsoft Office® 2007 documents (Word, Excel®, and PowerPoint®), OpenOffice.org / StarOffice™ documents, and SVG image files.

MetadataTouch™ is a standalone application that does not require other software to be installed in order to view and edit metadata.

The batch metadata editing capability of the professional edition makes MetadataTouch™ a superior tool for metadata management. MetadataTouch™ is also useful for e-discovery and digital forensics specialists.

About Digital Confidence

Digital Confidence is the leading provider of data leakage prevention (DLP), hidden data / metadata removal, and privacy software solutions to individuals and organizations of all sizes, from small and medium business and law firms, to large-scale enterprises.

Digital Confidence best of breed products enables our customers to make their way in the digital world with confidence, and frees them from the worry of unintentional sensitive data leakage which can cause embarrassment with possible financial and legal implications.

Digital Confidence is a privately held company with corporate headquarters in Tel Aviv, Israel.
