Digital Confidence Adds Exchange 2010 Support to MailValve EX

TEL AVIV, ISRAEL (September 25, 2011) — Digital Confidence, the leading provider of data leakage prevention (DLP), hidden data & metadata removal, and privacy software solutions, today announced the addition of Microsoft Exchange Server 2010 support to its hidden data & metadata removal add-in - MailValve EX™.

MailValve EX™ seamlessly integrates with Microsoft Exchange Server and removes hidden data from the attachments of each and every email sent from the organization according to a centrally set rules, thus enabling organizations to enforce an organization-wide hidden data removal policy to prevent accidental confidential and private data leakage, without the need of user intervention. MailValve EX™ fits organizations of all sizes, from small and medium business and law firms, to large-scale enterprises.

Powered by Digital Confidence DataDistiller™ Engine, MailValve EX™ is able to remove more than 50 types of hidden data from 20 file types, including Microsoft Office® documents (Word, Excel, PowerPoint), OpenOffice.org documents, PDF documents, and popular image and media file types such as JPEG, PNG, and SVG. MailValve EX™ can remove hidden data from files even if they are compressed within ZIP files.
