## **Digital Confidence Announces MailValve EX 3**

**TEL AVIV, ISRAEL (August 31, 2015)** — Digital Confidence, the leading provider of hidden data removal, data leakage prevention (DLP), and metadata management software, today announced the release of version 3 of its hidden data & metadata removal add-in for Microsoft Exchange Server - MailValve EX™.

The new version incorporates the latest version of the DataDistiller™ Engine, which is able to remove more than 60 types of hidden data from 25 file types, including Microsoft Office® documents (Word, Excel, PowerPoint)\*, OpenOffice™ documents, PDF documents, and popular image and media file types such as JPEG, PNG, and SVG. It can remove hidden data from files even if they are compressed within ZIP files.

MailValve EX™ seamlessly integrates with Microsoft Exchange and removes hidden data from the attachments of each and every email sent from the organization according to a centrally set rules, thus enabling organizations to enforce an organization-wide hidden data removal policy to prevent accidental confidential and private data leakage, without the need of user intervention.

MailValve EX™ is the only hidden data & metadata removal solution on the market today that was designed specifically for Microsoft Exchange and is tightly integrated with it as an add-in.

MailValve EX™ fits organizations of all sizes, from small and medium businesses and law firms, to large-scale enterprises.

### **About Digital Confidence**

Digital Confidence is the leading provider of hidden data removal, data leakage prevention (DLP), and metadata management software to individuals and organizations of all sizes, from small and medium businesses and law firms, to large-scale enterprises.

Since its foundation in 2009, Digital Confidence's desktop-based and server-based products has been deployed by more than 500,000 individuals and organizations.

Digital Confidence's best-of-breed products enables its customers to make their way in the digital world with confidence, and frees them from the worry of unintentional sensitive data leakage which can cause embarrassment with possible financial and legal implications.

Digital Confidence is a privately held company with corporate headquarters in Tel Aviv, Israel.
