Digital Confidence Announces ConfidentSend™ 3.0

TEL AVIV, ISRAEL (November 9, 2009) — Digital Confidence, the leading provider of data leakage prevention (DLP), hidden data / metadata removal, and privacy software solutions, today announced the release of version 3.0 of its data leakage prevention add-in for Microsoft Outlook® 2003/2007 and Mozilla Thunderbird™ email clients - ConfidentSend™.

ConfidentSend™ 3.0 was added the ability to inspect the contents of the email message and its attachments and to warn the user for the existence of sensitive information, such as Personally Identifiable Information (PII), by matching regular expressions.

Powered by Digital Confidence DataDistiller™ Engine, ConfidentSend™ 3.0 is the most comprehensive hidden data & metadata removal solution for email clients, capable of removing 39 types of hidden data from 18 file types, including Microsoft Office® documents (Word, Excel, PowerPoint), OpenOffice.org / StarOffice™ documents, PDF documents, and popular image and media file types such as JPEG, PNG, and SVG. ConfidentSend™ 3.0 is able to remove hidden data from files even if they are compressed within ZIP files.

About Digital Confidence

Digital Confidence is the leading provider of data leakage prevention (DLP), hidden data / metadata removal, and privacy software solutions to individuals and organizations of all sizes, from small and medium business and law firms, to large-scale enterprises.

Digital Confidence's best-of-breed products enables its customers to make their way in the digital world with confidence, and frees them from the worry of unintentional sensitive data leakage which can cause embarrassment with possible financial and legal implications.

Digital Confidence is a privately held company with corporate headquarters in Tel Aviv, Israel.
